

Electric Strike

with Preload Release Function

- Designed for wind pressure resistant.
- Easy to adjust the distance of the lock-tongue.
- 250,000 cycles testing.
- For Failsafe type only.

Model	DEL135SD
Dimension	195L*25W*42.5H(mm)
Strike Keeper	Thickened Zinc Alloy
Preload	200KG
Holding Force	400KG
Voltage	DC12/24V
Current	12V/260mA(±10%); 24/130mA(±10%)
Signal Output	NO/NC/COM door signal output
Suitable For	Wooden door, Metal door, PVC door
Surface Temperature	Lower than room temperature +20°C
Operating Temperature	-10 ~ +60°C(14-131F)
Humidity	0 ~ 95% (non-condensing)
Finishing	High Temperature Lacquer
Weight	0.5KG
